Chief, D/CG

Cancellation of D/CG Projects

The following approved projects of the Geography Division are being cancelled for the reasons given:

<u>Project Number</u>	<u>Cancelled Because</u>
69.1323	The project Critique of "Basic Problems of Geodetic Gravimetry," by M. S. Melodenskiy is cancelled. It is planned that this translation will be issued through OTS/Commerce via FPD -- as a translation and not as a D/CG report.
63.1630	The proposed OM on Analysis of East German Population Movements is cancelled because of receipt of later information that, for the time being, makes the geographic intelligence memorandum out of date.
63.1650	Code: EDITOR. This project is cancelled because the Europe Branch has been informed by the requester that the area is of too low priority to warrant spending time.
